## WORK EXPERIENCE

### Junior Backend Developer, Capacity, St. Louis, MO, March 2020 – Present

- Handled custom client integrations with third-party APIs and internal tools.
- Designed and implemented a regression testing suite for a widely used API within the company, keeping 100% test coverage in mind.

### Data Labeler, Capacity, St. Louis, MO, August 2019 – March 2020

- Responsible for organizing and cleaning data for use in training artificial intelligence models.
- Designed weekly tasks to ensure data integrity and created relevant process documentation.

### Product Specialist, Label Insight, St. Louis, MO, November 2017 – June 2019

- Collaborated with clients to develop unique health and wellness programs and data offerings by acting as a subject matter expert on consumer packaged goods.
- Wrote internal and external attributes to bring industry trends to life.
- Managed internal database taxonomies and informed decisions on how data should be presented.

## PROJECT EXPERIENCE

### STFU&EAT — Local Restaurant Guide

- Designed an app that provides an instant restaurant recommendation.
- Created an api with Python and Flask and collaborated with a front-end developer to ensure a modern design using React.
- App will be pushed to the marketplace by the end of Summer 2020.

## EDUCATION

**LaunchCode**, CoderGirl — 2020

**Southeast Missouri State University**, B.S. Chemistry — 2015
